*"It was one of the most rewarding musical experiences I have ever had. The professional caliber of the festival is on an extremely high level ... The Faculty and Orchestra are extremely proficient and the students, who are chosen competitively, are all eager to learn and work hard. Several of the students had never sung with an orchestra before working with me this summer and it was a fantastic and unique experience for them. I cannot recommend Varna International highly enough and I look forward to returning."*

*"I had the great pleasure of being a part of the music staff at the Varna International Music Academy. This programme offers singers a great opportunity to get real stage experience. The production period resembles in many aspects the reality of a professional engagement; it helps the participants to acquire the skills and stamina to operate successfully in the very competitive opera industry. The programme is well structured and it provides a great opportunity to grow and consolidate the skills."*

*I am now in Paris, reflecting on my June with Varna International . For 3 weeks, I studied and performed the role of Despina in the controversial opera, Così fan tutte. She has disguises, she's sassy, she's elegant. For my first full role, she was so fun to learn. In the program, I worked an amazing director from Northern Arizona University, made music with amazing coaches from the Royal Opera House and Wiener Staatsoper, and was conducted by Gregory Buchalter from the Metropolitan Opera. It was a challenging and immersive experience, and I am so proud of everyone included. Singers, orchestra, conductors, vocal instructors, coaches...everyone helped one another make this such a special experience.*

*The past three weeks working at Varna International Music Academy have truly been amazing. Since I was very young, I've always admired opera and have wanted to study and perform in a fully-staged production. I'm incredibly grateful for being able to achieve this little dream of mine by singing in the chorus and as the "Novice" in Puccini's "Suor Angelica."*

*In addition to performing, I was able to participate in an internship where I assisted our makeup and wardrobe team in Puccini's "Gianni Schicchi" and "Suor Angelica." This was my first experience working in this field and it was an amazing opportunity to be able to help with these two fully-staged productions. In addition to assisting with hair and makeup, I had the opportunity to become the Stage Manager for Mozart's "Cosi Fan Tutte."*

*Through these positions I was able to work with some of the most talented people from across the world. I also had the opportunity to make friends with some of the most talented, amazing, incredibly people I have ever met. I'm extremely thankful for this life-changing experience. I never thought I would travel to Varna, Bulgaria, let alone for the opportunity of a lifetime to sing and assist with three outstanding operas. This truly was the opportunity of a lifetime that I will never forget!*

*"Nicole and I had the pleasure of attending two performances organized by Varna International in 2018, one in Varna and one in Sofia. Kalin and Sharon Tchonev, the organization's founders, have worked tirelessly to bring Americans and Bulgarians together through the magic of culture. In doing so, they have brought hundreds of talented young Americans to Bulgaria over the years to work and perform with talented Bulgarians and students from all over the world, bridging the Transatlantic divide with music, friendship, understanding, and truly great performances. They are also talented educators: I myself learned much from their staging of Kurt Weill's "Street Scene" in Varna this year, a work that is rarely performed, and which offers fascinating insights into American culture and society in the post-war period. It has been a pleasure and a privilege to support the Tchonevs' work, and I look forward to many more wonderful seasons!"*

I gained experience as if I had a fest contract in an opera house! It was significantly cheaper than I would spend at a similar program in the states or in Europe because of its unique location in Eastern Europe. I would definitely recommend this program!”*

There is so much warmth and support from beginning to end. I gained so much in several ways of my development and nothing could have catapulted me forward as this program did. The tools I gained from such an intensive and thorough program have truly changed my life and my ability as a whole. Thank you, Varna, for all of the magic you brought to my life and expanding the horizons of what I do. I have really treasured my time in Bulgaria and have truly fallen in love with the beauty it has to offer. I look forward to returning several times in the future. This is a one-of-a-kind program and is certainly worth the investment of participating. I would give it 100 stars if I could. “THANK YOU FOR EVERYTHING VARNA INTERNATIONAL!!!”*

*"I cannot speak highly enough of the Varna International Music Academy. Nearly all of my professional activity today is indebted to the valuable experience and training Varna International has provided. As a conductor at a small liberal arts college, I quickly learned that opportunities to study and perform the great choral and orchestral repertoire were few and far between.*

*In 2006, I took part as a Conducting Fellow in Varna International's summer workshop, preparing and performing the Verdi Requiem. The amount of podium time afforded to each Conducting Fellow and Associate is second to none, and the benefits were immediate. Not only was my technique refined under the excellent tutelage of Larry Wyatt and Dian Tchobanov, but remarkable professional opportunities emerged upon my return home. I was hired the very next year by our local symphony orchestra as Chorus Master for their production of the Verdi. My experience with the Varna Academy was so positive that I returned to Bulgaria as a Conducting Fellow in 2007 for their orchestral program, preparing a number of great orchestral works, and conducting portions of the Brahms Symphony No. 3 in performance. I returned again in 2010, this time bringing some of my choir students to perform the Mozart Requiem and for me to conduct a portion of his Sinfonia Concertante. Preparations for that trip directly led to my conducting the Mozart Requiem with our local symphony orchestra, which in turn opened the doors for many other professional opportunities, including serving as Chorus Master for our local opera company, and founding and directing the Randolph College Chamber Orchestra. In 2015, I brought choral and instrumental students to perform Haydn's Creation, while I had the honor of serving as Assistant Conductor for the Varna International Opera Academy, performing Puccini's Suor Angelica and Gianni Schicchi.*

*Although I could not have imagined the professional opportunities that have arisen from my experience with Varna International, it is the personal touch and genuine friendship offered by Kalin and Sharon Tchonev that I have valued above all else. As I frequently tell colleagues, students, and parents, one cannot have better people to work with in creating a beautiful, meaningful, and professionally relevant international music experience. I look forward to my next engagement with Varna International as I plan to bring students to the Academy in 2018!"*

*"I had the pleasure to teach and perform at the 2016 Varna International Opera Academy. Of all the European summer programs, Varna is truly the hidden jewel for young American singers. Participants have the opportunity to rehearse and perform at State Opera Stara Zagora in Bulgaria alongside professional singers. The staff and artists at the opera house are incredibly kind and generous. The amount of orchestra rehearsal time given to participants is unprecedented. The vocal coaches and teachers are world-class. If you are looking for a summer program that will provide performance experiences with orchestra, you have found it. Look no further!"*

*“It was my honor to be asked to sing the roles of Sharpless and Bonze in the 2016 Varna International Opera Academy’s production of “Madama Butterfly” with the Stara Zagora State Opera. In addition, I sang in opera excerpts from “La Boheme”, “Fidelio” and “Die Fledermaus”.*

*I found the entire experience surpassed my expectations. Rehearsals, coachings, private lessons and all aspects of the performances on and off stage were of the highest professional quality and standards. Participants were treated as professional singers, and were given a chance to work side by side with Bulgarian professional opera soloists. Rehearsals were detailed and intense and prepared everyone for the performances. Nowhere else can a singer experience a chance to work with one of the best conductors in the business, with a full professional orchestra and opera chorus, in a professional opera house with full sets and costumes, except for the Opera Academy of Varna International. Participants received individual coachings from experienced coaches from the United States and from Europe, as well as private voice lessons with international opera stars. I for one benefitted greatly from my lessons with Darina Takova. The entire process from first arrival to the final curtain was well organized by the administration. Accommodation and meals provided were “five star” and the management team took time to make everyone feel welcome and valued for their musical contribution.*

*As a “seasoned veteran” in the music business I can highly recommend this program to singers of all ages and experience. Whether you are a main soloist, sing a small role, understudy a role, or sing in the chorus, you will come away with a fulfilment unlike any other. You will have been part of a centuries old musical tradition called opera, and there is no better way to achieve this musical nirvana than to be part of Varna International Opera Academy 2017. See you there!”*

*“My experience with Varna International Opera Academy in the summer of 2016 exceeded my expectations from a summer program. I performed in Madama Butterfly before but I had no video and so I decided to come and sing in Stara Zagora, Bulgaria. The whole organization was very good from the transfer from the Sofia Airport to a very nice hotel where all the participants were staying. The rehearsals were intense as in any other production. The theater has become my second home for a month. The opera coaches' level was very high! Starting from the wonderful pianist Ariadna Zagrea- Chiba up to our stage director, Dale Morehouse, whose traditional view of Madama Butterfly has helped everyone to understand in depth the notes of Puccini. Along with artists of the Stara Zagora Opera Chorus, dressed in beautiful Japanese costumes and guided by the magic hand of the Maestro Tchobanov, we got to sing two very respectable performances. One of the top moments of the month was a Masterclass of Bulgarian soprano Darina Takova – a great artist, who was engaged by Varna International to give us private voice lessons. I met some fabulous people and close friendships that will surely endure the test of time. A perfect summer doing lots of music together and learning and improving a lot.*

Everyone - from the faculty, the administration, the professional musicians, the opera house staff, and the Bulgarian people - were warm, welcoming, and made for a great learning environment. It was such a supportive experience and the teachers and coaches really cared about your growth and success. This program is unique in that it is full of opportunities for both developing young artists who are still in school and also for advanced singers making the shift into professional work. *"Varna International is an inspiring program for young artists, which gives them complex opportunity to develop their performing skills and professional experience on stage. I believe that the most important thing for a young opera singer is to start meeting the challenges of our job on stage, in the real environment and the program of Varna International provides this in all forms. From coaching with experienced vocal coaches and pianists, through rehearsing a real opera production, ending with concerts and performances. They work both on separate pieces from various operas and entire roles and have the perfect amount of time and space to adapt every new knowledge into their everyday work, which follows after the end of the program. The environment is friendly and supportive, the possibility to work in a real opera house is inspiring and I believe that all of this gives great chance to every participant in the festival. Varna International is perfectly organized and provides everything a young artist could possibly need. I have experienced great joy working with everybody both faculty members, and participants."*

*I would like to express a big thank you to Varna International as well as to all the faculty and to the Stara Zagora Opera house musicians and staff. I enjoyed studying in this academy and learned a lot about not only opera conducting but also the opera production in a real European opera house. My interest and enthusiasm for opera were greatly strengthened as a result of studying here, and what I have learned with you is now a treasure of my musician life. Working as the Assistant Conductor for Maestro Tchobanov and all musical staff was an eye-opening experience in so many levels. The Stara Zagora Orchestra and Chorus has very special European performance traditions that is almost mythical and which I have never seen in the American opera theaters. Being able to work with them really opened my ears to the European opera tradition that exists nowhere else in the US or in my native country of Japan. Their freedom in expression, style and tradition will definitely stay with me and have impact on my future music-making."*

I wish to thank all the team from Stara Zagora State Opera and to say THANK YOU very much for the remarkable conditions of work and living during the academy courses!!! I know very well how difficult is to organize such mammoth plan including traveling conditions for so many people from different countries! I was extremely happy and pleased about the well-chosen faculty, conductor, stage director, and good and sensitive soloists. Also, the very good lodging conditions in Hotel Vereya in the city of Stara Zagora, good food, very civilized, careful and considerate conditions of transportation and more than anything the very good care you extended to us. *The staff you hire is TOP NOTCH from top to bottom. I benefitted from their expertise and I know the students did. It is a wonderful and difficult learning curve for the students to work with people who demand such a high level of professionalism. It definitely made them (and me) want to bring their best to the performance.*

*"The Varna Opera Academy experience was incredible. From a professional standpoint, each of our participating singers grew exponentially as artists during the three-week intensive training. The opportunity to interact with and receive coachings from the professional staff of the Stara Zagora Opera Company was particularly meaningful to them, as was the chance to perform fully-staged and costumed works with the resident opera orchestra (which played beautifully under the direction of Maestro Dian Tchobanov). They came away from the academy empowered by the experience and eager to move forward in their studies and careers.*

*As cultural visitors, each of us was entranced with Bulgaria. The beauty of the Black Sea; the lush countryside of the interior valleys; the many sites of historical interest and significance were so stimulating. We were particularly overwhelmed by the stunning Roman and Thracian ruins as well as the fine museums full of artifacts. *"A visit to Bulgaria is a must for choral directors who aspire to learn as much world literature as possible. Even better than the music, though, is getting to know the Bulgarian people, their culture, and their fantastic cuisine. The musical instruction received in rehearsals is outstanding, and the opportunities to conduct in concert allow conductors the opportunity to put practice into reality. The Tchonevs do everything to ensure that guest conductors are receiving the best instruction and hospitality they have to offer. I am already planning a return trip and want to take my singers with me to experience this delightful workshop."*

*"My experience in Bulgaria transcended all my expectations. Unlike other more competitive workshops, the Varna International Conducting program cultivates a supportive collaborative environment. As an emerging female conductor, I had the opportunity to work with some extremely talented and inspirational musicians who remain my mentors and dearest friends. With a full orchestra and chorus at the tip of my baton, the experience brought my passion to a whole new level. Words cannot begin to describe how impactful this experience was for me musically and personally."*

*"The Varna International Conductors Workshops have been wonderful experience for me. Professors Tchonev, Wyatt, and Tchobanov were not only outstanding teachers; they also tailored their instruction to whatever level of experience each conductor brought to the podium. The score study sessions were extremely beneficial, opening new vistas into each work, and the extensive amount of podium time afforded each conductor allowed us to put in practice that which we learned. Both the orchestra and the choir were well-prepared so that we were free to work on musical nuance while refining our gestural technique. Finally, warmth and hospitality of the Bulgarian people and the rich historical significance found in the buildings and history of Bulgaria make this an unforgettable experience. I, for one, will go back!"*

*"I have attended both the winter and summer workshops of the Varna International Conductors' Workshop. The winter orchestral workshop gave me a unique opportunity, seldom available in the United States: the opportunity to work with a wonderful chamber orchestra on a variety of literature, to have significant podium time on all pieces, and really refine my conducting under the tutelage of a great conductor and teacher, Dian Tchobanov. The winter choral workshop was an equally wonderful opportunity to grow as a conductor while learning wonderful Bulgarian and Russian choral repertoire unfamiliar to me, working with the great teacher Professor Marin Chonev and Morski Zvutsi Choir. The summer choral-orchestral workshop provided the most unique opportunity, over a week to get to rehearse a well-prepared chorus and orchestra on all parts of a major choral-orchestral work while being critiqued and taught by an extremely knowledgeable and talented faculty (Maestros Wyatt, Tchobanov, and Tchonev).*

*The faculty gives each conductor equal attention and podium time and helps each conductor take his or her conducting to the next level. Varna is a lovely city in a wonderful country with excellent musicians, which provides a great setting for such a wonderful workshop."*

*"The Bulgarian Choir, Morski Zvutsi, made us feel completely welcome, and the singers were so willing to be patient as we learned new conducting techniques to expand our baton vocabularies. The conducting staff of Maestros Chonev, Kolarov, and Wyatt was equally adept at working with conductors at various stages of development, and the conductors taking the workshop were all supportive of each other's efforts. I can't imagine a better way to develop professionally and musically and to visit a beautiful and intriguing country. Plus, the American singers who came along in my group were equally thrilled to have a marvelous singing as well as travel opportunity and holiday!"*

*"As a choral conductor who attended as an auditor, bringing choristers from my parish choir, the workshop both met and exceeded expectations: the geographical area, historical and beautiful; the people, warm and friendly; the organizers and guides, accessible and helpful; the Bulgarian choral, vocal, and instrumental musicians - inspirational; and the professors who instructed the conducting participants - exemplary of the serious music culture of the area and eager to share pedagogically with all involved."*

*"I am glad to have been a part of the Conductors Workshop. It was a beneficial experience to have the time to study, rehearse, and to present such a monumental work as the Verdi Requiem. The professional level of the orchestra, choir, and soloists was impressive and added an additional dimension to the workshop. I knew that the workshop would be helpful to me as a conductor. However, my expectation was greatly exceeded by the experience of the week. I will convey to my colleagues in America the outstanding musical work that is being done in your city. Thank you for the invitation and the opportunity to be with you for the workshop. I hope that I will have the opportunity to return."*

*"The Varna Conductor's Workshop was a great opportunity to work with a well-prepared orchestra and chorus, for both the conductors and the American singers who augmented the chorus. One aspect of the workshop that I liked very much is that the conductors got to try many sections of the Verdi Requiem before actual "performance assignments" were made. This made it imperative that we learn the entire work, and as a result I feel I am well-prepared to conduct the Verdi with my own choir next year. The atmosphere among the conductors and clinicians at the workshop was supportive and delightfully free of favoritism. Everyone received equal attention, whether they were beginners or advanced, and thus all the conductors improved their skills over the week of the workshop. I was very pleased with the friendliness of the Bulgarian people. It was also a comfort that the Golden Sands Resort Area was both beautiful and safe, with many interesting restaurants and shops to keep us busy outside of rehearsal times."*

Kalin Tchonev and Sharon Tchonev are fantastic people and have set up a wonderful program.”*
